Profile

Anaeko was established to address the increasingly complex and challenging data management issues in large organisations and over the years has developed world class competencies in **Agile Data Integration**, specifically RESTful data federation.

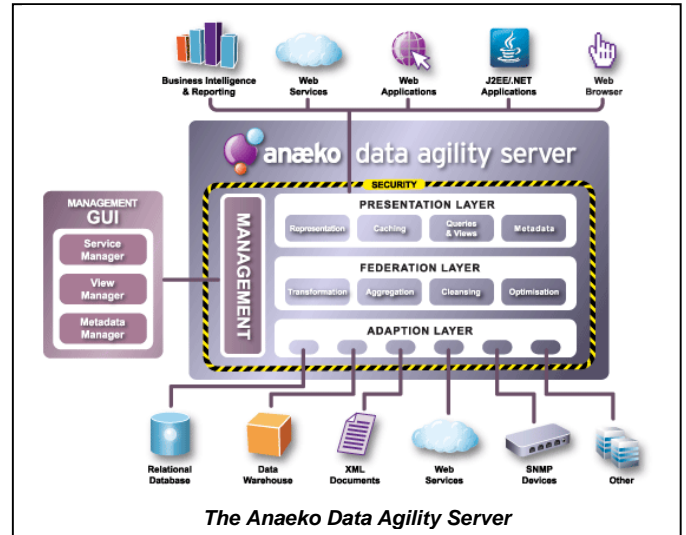

Anaeko provides a range of software services to customers globally.

Anaeko provides specialist consultancy in:

- o **Agile Data Integration**
- o **Mobile Advertising**
- o **Service Delivery Platforms**

Anaeko services include:

- o **Data Integration**
- o **Software Development**
- o **System Integration**
- o **Consultancy Reports**

The **Anaeko Data Agility Server (A-DAS™)** is a real-time data federation product around which Anaeko delivers data integration consultancy.

Applications of **A-DAS™**:

- o **Data-as-a-Service**
- o **Single View of Customer**
- o **Real-Time Reporting**
- o **Hot-Housing & Prototyping**
- o **Master Data Management**
- o **Data Integration within a SOA environment**

The **Agile Data Integration Methodology™** is Anaeko's distinctive approach to data integration based on agile principals where early validation and continual refinement guarantee timely solutions that are fit for purpose.

Anaeko provides:

- o **Data Quality Audits**
- o **Governance Audits**
- o **Data Integration Services**
- o **Data Transformation**
- o **Data Migration Scripts**

Reference Engagements

Data Integration

Anaeko provides expert data integration service, improving customer support by optimising diagnostics across all **BT** products and services.

Mobile Advertising

Anaeko architected and integrated a highly targeted multi-channel mobile advertising platform for the **Mobile Advertising Alliance**.

Service Delivery Platform

Anaeko has unparalleled knowledge of SDPs having architected an end-to-end product-based SDP for **The SDP Alliance**.
